Pet Odor Remover

This product is designed to remedy, minor, fresh pet urine odors in carpets and rugs between professional cleanings. For best results, treat urine deposits immediately. Pet Odor Remover is effective when used on fresh urine deposits. Urine deposits allowed to dry can possibly cause bleaching, and make stain and odor removal difficult.

Rooms with multiple deposits and older, dried deposits will most likely require a professional strength application from a local Chem-Dry professional.

Product Safety

Keep out of reach of children. Caution: Prolonged contact with skin and eyes may lead to irritation. In case of eye contact, flush with water for 15 minutes. In case of skin contact, wash affected area with water. If ingested, give one to two glasses of water.

Shelf Life

The shelf life of Chem-Dry Pet Odor Remover is two years, as long as it is in a sealed container.

See the SDS portion of this manual for additional safety information.

Pet Odor Remover

Item # C037-12

pH 6-8

APPLICATION INSTRUCTIONS

Pet Odor Remover is Ready-to-Use

Application:

1. Remove as much urine as possible from the affected area by vacuum extraction or blotting with a towel or other absorbent material.
2. Soak area with the Pet Odor Remover product and remove extra product with vacuum extraction or by blotting with an absorbent cloth.
3. Repeat the application of Pet Odor Remover and again extract the excess with vacuum extraction or by blotting with an absorbent cloth.
4. Cover area with a clean white towel and allow area to remain damp for approximately 24 hours.
5. Do not walk on damp carpets with soiled shoes.
